I have used your Believa NATURAL INTENSIV Care Cream for our grandson, suffering from dermatitis. With regular applications of your Care Cream his skin has been really good for over 3 years, with no new outbreaks of eczema or dermatitis.

Often after showering or bathing, the skin is very dry. With its carefully selected, high quality nourishing ingredients, Believa NATURAL INTENSIV Body Lotion provides the skin with intense moisturisation for a prolonged period.

It is absorbed very quickly without leaving any residue, and supports the natural, protective barrier of the skin.

Believa NATURAL INTENSIV Cleansing Milk cleanses the skin thoroughly yet gently. The mild emulsion is optimally balanced to meet the needs of dry and dehydrated skin. It removes make-up and other impurities from the skin without irritating it. At the same time, it protects the skin and primes it for further stages of skincare.

NATURAL INTENSIV Night Activ

Sleep is the time when the skin's repair processes and cell renewal are at work. It is important to provide optimal support to the skin during this period, so the protective barrier of the skin can be regenerated.

Apply Believa NATURAL INTENSIV Night Activ cream to the affected areas of the skin in the evening after cleansing.

APPLICATION:

Believa NATURAL INTENSIV Night Activ is suitable for dry, cracked, scaly, itchy, and allergy-prone skin. Perfect for babies, children and those with sensitive skin.
